DE residence permit

Current Full-Stack-Developer student with a lifetime passion for tech and innovation. A former M&A lawyer and project manager who had the privilege of working closely with multi-professional teams and stakeholders in cross-functional environments by participating in various international transactions and web development projects.

Professional Experience

Full Stack Developer – Code Academy (Berlin).

06.2022 - Present

Five month full-time course onsite training as Full-Stack Developer following an Agile/SCRUM framework. Three projects I have developed are:

- **Adopt a Tree** JavaScript, MERN Stack (MongoDB, Express, React, Node), HTML5, CSS3, Material UI, Bootstrap.

Social media app that motivates the user to take care of street trees in Berlin, upload photos and interact using comments and likes.

- **My German Vocabulary** Modern JavaScript, React, Firebase, Firestore, HTML5, CSS3, Bootstrap.

Progressive web app to help me increase my German vocabulary. Any user can find words definitions and save them with notes.

- **Footprint Calculator** Vanilla JavaScript, HTML, CSS, Bootstrap.

Web app that enables the user to find the CO2e estimates of a variety of activities around the world.

Project Manager – Quantum Leap (German NGO).

03.2022 - Present

- Active participation as a volunteer in the development cycle of a web app to help people fight climate change.

- Project manager of several sustainable projects in Germany and Latin America.

Attorney & Project Manager – International law firms in America (Arias & Sfera Legal).

10.2013 – 01.2021

- Managed and led teams of professionals through the entire project lifecycle of more than 15 M&A transactions between international parties. Acting as head project manager and attorney, I ensured the appropriate execution of each project according to professional assessments, risk management and the client's strategic goals.

- Responsible of stakeholder management in a variety of international transactions serving as a point of contact for different clients, providing proactive support and clear guidance.

- Negotiation and clearance of public authorities in more than 25 procedures, including antitrust submissions and individual litigations.
